SUBMITTAL OF ADS AND REQUEST FOR STATUS

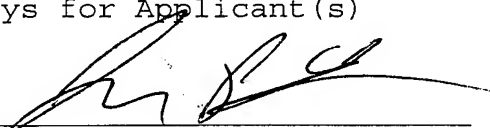

1. On September 18, 2006, applicants filed a request for entry into the U.S. National Stage of the above-identified PCT application. We enclose a copy of the stamped receipt (Ex. A) as proof of deposit. However, we have not yet been informed of the serial number of this case and consequently cannot check the serial number for the status of this case.

2. It has come to our attention that there is a discrepancy between the inventor's name as set forth in the transmittal letter (Michael LARSEN) and set forth in the PCT papers (Lars Michael LARSEN). The latter is correct. According to MPEP 605.04 (b), a typographical error in the spelling of an inventor's name may be corrected by filing an ADS. The enclosed ADS not only make this correction, it updates the inventor's address in accordance with the change recorded by the International Bureau on October 4, 2006.

Respectfully submitted,
